

PROGRAM ELIGIBILITY REQUIREMENTS:

Participation in the 1122 Program is available to California State and local governments to purchase equipment for Counter Drug, Homeland Security and Emergency Response activities. Requirements for an agency to purchase equipment are they must certify in the 1122 program for CD, HS and or ER. Each participating agency must select one activity per certification letter, but may certify in all three.

In those instances where the status of the agency cannot be determined, the requesting agency must contact the State Point of Contact (SPOC) for further determination.

Certification does require that an agency has as a part of its mission one or all three of the below activities, depending on what activity they certify in:

- Counter Drug: A requirement to enforce anti-drug laws or engages in or supports prevention, intervention or suppression activities related to counter drug.
 - Emergency Response: A requirement for first responders plus emergency management, public health, clinical care, public works, and other skilled support personnel (such as equipment operators) that provide immediate support services during prevention, response, and recovery operations. The emergency responder community consists not just of fire, law enforcement, and medical immediate responders to an accident or emergency situation but also to the infrastructure that supports them and other emergency response organizations.
 - Homeland Security: A requirement for homeland security to prevent and protect California from terrorist attacks within the United States; reduce America's vulnerability to terrorism, major disasters, and other emergencies; and minimize the damage and recover from attacks, major disasters, and other emergencies that occur.
-
